

## Testimonial

After evaluation of many software vendors in 2007, we have decided to implement NextGen **Hospilogix** - a web based hospital management software in one of our hospital in NCR on pilot basis. In last five years our association with NextGen has moved from single hospital to six hospitals in NCR. NextGen solution is now supporting our multiple chain of hospital having total capacity of more than 800 beds.

During last five years the support, enthusiasm and passion to improve the quality of the Product, customize the solution as per changing need, handling and resolution of our queries in time has received appreciation from our management time to time. Metro Group has the vision to open more centers in other parts of the country and we sincerely hope that the relationship which started five years ago will continue for long period of time to come.

We thank NextGen team for their excellent support during the time and wish that our association will continue for years to come.
